BLACK CLEANER

PRODUCT DESCRIPTION

BLACK CLEANER is a super-concentrated alkaline detergent for deep cleaning of all surfaces contaminated with soot and other dirt, particularly those caused by fire. Product for professional use only.

APPLICATION FIELD

BLACK CLEANER quickly dissolves soot on plastics, vinyl, tiles, natural stone, façades, balconies, terraces, garages, industrial floors, etc.

APPLICATION

Apply the product with a brush, a spray or a sponge. Leave to act for between 5 and 45 minutes. Rinse with a jet of water or a sponge for more delicate surfaces (cupboards, drawers, etc.) and with high pressure on building materials. Repeat the operation if necessary.

Before use, we always recommend testing the product on a small area of the surface to be cleaned.

PERFORMANCES

Coverage : 5 to 10m²/L. Pure (for industrial floors) or diluted depending on the degree of soiling and the nature of the surface.

Appearance : Fluorescent yellow aqueous liquid

Odour : Orange

Density : 1.03 +/- 0.06

pH : 9 +/- 0.5

Properties : Solution based on solvents and surfactants combined with an alkaline agent

CLEANING OF MATERIAL

With water.

STORAGE CONDITIONS

1 year in the original closed and unopened packaging. Fear frost.

Store in a well ventilated area at a room temperature between +5 and +25°C.

Our information on the technical product is used only as assistance to professional workers. During the implementation of our products, we always advise to start with a test on a small area.
