

# PROTECT WOOD AGUA

## PRODUCT DESCRIPTION

### INSECTICIDE & FUNGICIDE

Preventative and curative product against pests in wood (insects, worms, longhorn beetles, termites, fungi (dry rot) and wood mould). Suitable for both indoor and outdoor wood.

## APPLICATION FIELD

All types of wooden furniture.  
Frames, beams, planks, lintels, staircases, flooring, marquetry, etc.

## TERMS OF USE

Shake well before use. Clean wooden surfaces beforehand. Remove any layers of wax, varnish, or paint before treating the surface. Work in a well-ventilated room, preferably wearing gloves and a mask.

### Application:

- Apply two coats with a brush.
- Soak for a few minutes.
- Spray on.
- Inject into walls (ask for advice).

For surfaces with holes, apply more thoroughly or inject the product using a syringe.  
Leave to dry for 48 hours before finishing.

Do not eat, drink, or smoke during use. Wash hands after use. Do not treat wood that comes into contact with food or animals (beehives, etc.). Do not use on wood that comes into contact with water or the ground.

## CLEANING OF MATERIAL

Water or solvent.
